**I.6 Reason**

It has come to Diamond's attention that some DA 62 aircraft had vent hoses kinked during installation of the previously approved drain cover P/N D67-5741-17-00, resulting in restricted airflow and potential damage to the fuel tanks. For this reason, Diamond has introduced a hinged drain cover, which offers improved visibility during cover re-installation, allowing maintenance personnel to verify the vent hoses are aligned and not kinked. This service bulletin describes the replacement of the existing drain cover with the new hinged drain cover.
