

Updating CD Catalog (Online Computers)

Requirements:

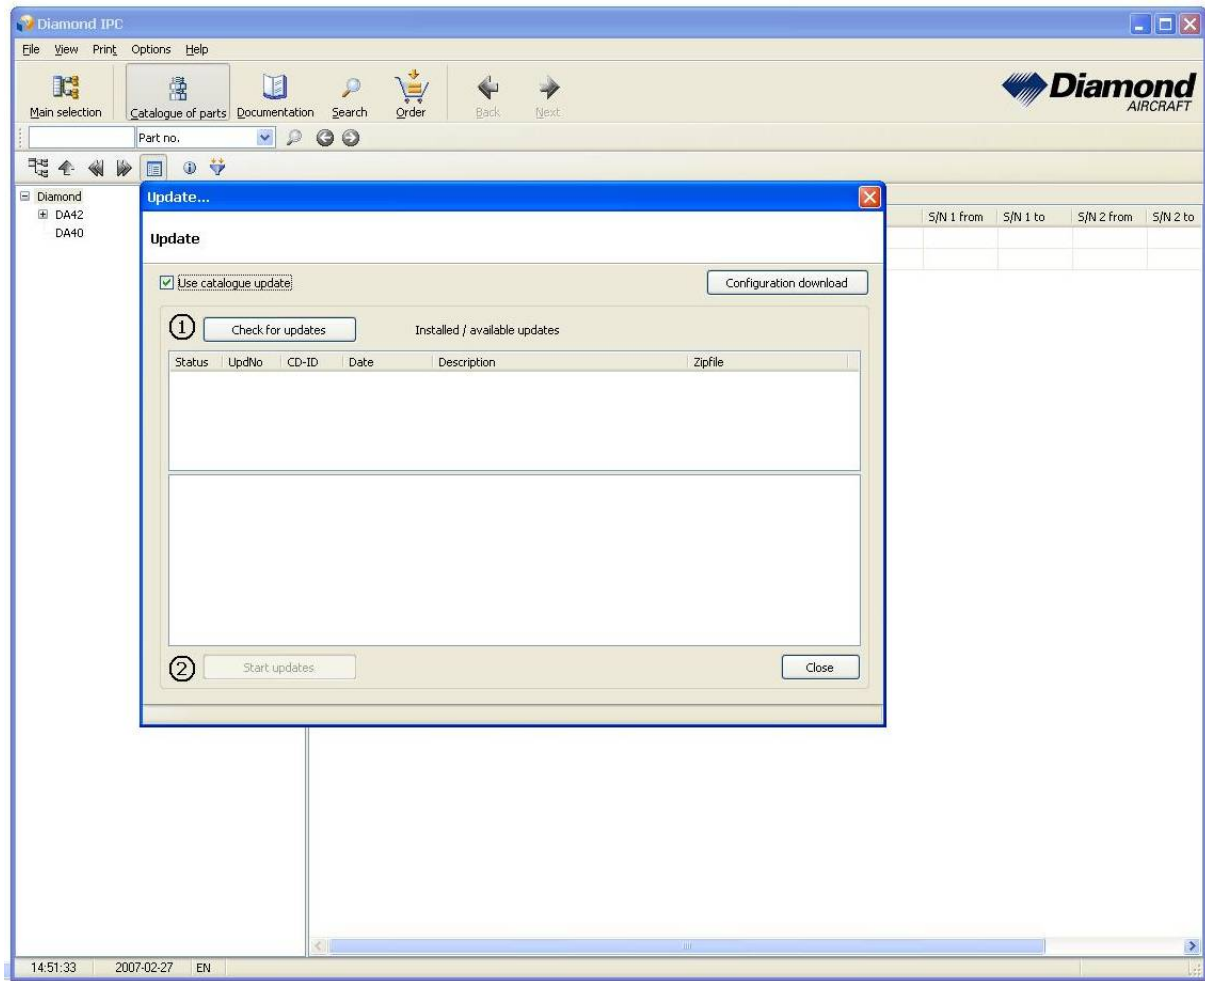

CD Catalog has to be installed at the computer (not started from CD).
A connection to the internet has to be established.

Step 1:

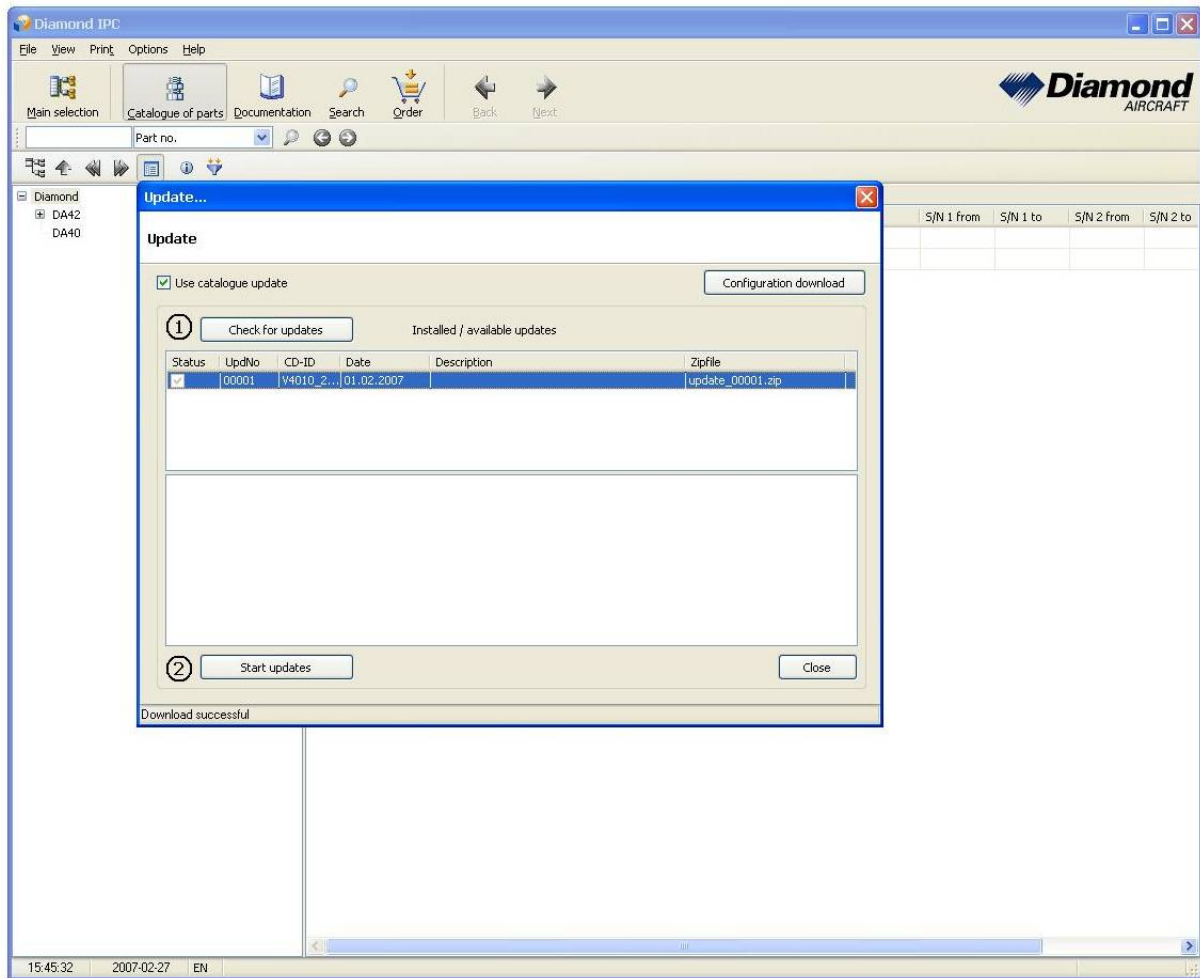

Start CD Catalog and select "Update...".

Step 2:
Click at button "Check for updates".

The update manager searches for updates at the internet und displays the available updates. Already installed updates will be marked.

Step 3:

Select desired update.

Click at button "Start updates".

(Attention: Updates have to be installed sequentially)
